The Department of Computer Science at the
UNIVERSITY *of* **HOUSTON**
and the National Science Foundation

REU Site: Undergraduate Research Experience in

Frontiers of Data-Driven Computing

10-Week Summer Position

Selected applicants will receive a grant over the ten-month period to pursue research with one of the faculty members of the Computer Science department of the University of Houston. The grant will include a **stipend of $6,000, room and board for 10 weeks**, and limited **travel reimbursement** if the applicant is coming from outside the Houston metro area. Participants will make important contributions to the Department's ongoing research efforts. Check our website for dates.

Qualifications:

- US citizens or Permanent residents
- Major in science or Engineering in a US university
- Solid CS and Math background
- Proficient in C++, visual C++, or Java

Priority Deadline for Application: February 15
Deadline for Application: March 15
or until the positions are filled.
